Application rates:

Aquatic Clear Dam is disturbed as evenly as possible over murky water at an initial rate of 20 litres per 1 ML of water.

To achieve desired results, subsequent treatments at half initial application rate - 10 litres per 1 ML of water

Aquatic Clear Dam is an advanced formulation that quickly clears murky Lakes, Dams & Ponds.

Aquatic Clear Dam is a flocculent designed to remove suspended clay, silt, fine organic matter, microscopic organisms & algae from the water column improving clarity.

Aquatic Clear Dam usually generates noticeable results within 48 hours.

Organic matter, microscopic organisms & some forms of algae harbour waterborne diseases & pathogens. *Aquatic Clear Dam* can assist in removing these particles from suspension & improving water health.

Murky water can cause negative impact to irrigation systems & plumbing by :

- blocking irrigation spray nozzles
- build-up of sludge in drippers & pipes
- staining of plumbing equipment

Improve clarity of murky water with *Aquatic Dam Clear*

DIRECTIONS

Aquatic Clear Dam is disturbed as evenly as possible over murky water.

Aquatic Clear Dam can be diluted with clean water up to 20:1 to assist in even application.

For optimum results:

- Treat on days of minimal wind
- Do not treat water where pH is above 9

To achieve your desired results additional applications can be made 72 hours after initial application.

Available in 1lt, 5lt & 20litres.
