## Aquatic Hand-Held Spreader Features and Benefits:

- Dispenses our 'Dam Stop Leak' with ease
- Easy scoop & pour front
- 3 variable dispersion rate
- Trigger control
- 1.5kg hopper
- Disperses up to 5m

## Aquatic Technologies Hand Held Spreader

The quick and easy way to evenly apply granular or seeded material.

*Hand Spreader* - Generous 1.5kg hopper with easy to fill container. Scoop front for easy filling and pouring.

*Hand Spreader* - Adjustable flow gate with 3 variable setting control switch.

*Hand Spreader* - Robust poly design. Will not rust.

*Hand Spreader* - Trigger control to accurately control flow.

*Hand Spreader* - Broadcast range up to 5m.

*Hand Spreader* - High RPM gearbox with enclosed smooth anti-skip gears.

Ideally crafted for the accurate application of [Aquatic Dam Stop Leak](#)

Using Hand Held Spreader you can accurately and evenly apply your material over land or water.

Can be used from the shoreline.

## Instructions

1. Fill the hopper.
2. Adjust the rate at which you desire contents to be dispensed by manually flicking between settings 1-3 on the handle.
3. Begin application by walking at a desired speed, squeezing trigger on handle with one finger and rotating handle with other hand.
4. Clean unit with a damp cloth after each use.

## Other Tips

Do not store product in the hopper when not in use.

Never rinse allowing harmful chemicals to enter storm water or sewers.

Overlap spreading area approximately 30cm if applying in straight lines.

Please be mindful of wind conditions when applying.

AQUATIC

Use the Aquatic Technologies Hand Held Spreader  
in conjunction with

> Aquatic Dam Stop Leak

## DAM STOP LEAK *Used in conjunction with the Hand Held Spreader*

### *Aquatic Dam Stop Leak*

*Aquatic Dam Stop Leak* is a powder/granular blend of polymers. The product is broadcast out on to the surface water of the dam and allowed to sink vertically down below the point where it contacts the surface of the water. The polymer particles get drawn into leaking areas where they lodge and create massive blockage constricting the loss of water.

#### Coverage:

20kg Aquatic Dam Stop Leak covers 250 square metres of water surface area.

*Use our Hand Held Spreader for dispensing.*
